Technical data sheet BauderTEC Sprint DUO Roofing membrane

23/02/2023

| Product description | sealing. T lap there | er bitumen self-adhesive underlayer with variable technology for lap The two side laps of the membrane have differing finishes. On one is a self-adhesive finish, whist the opposite lap has a glass fleece. vs the membrane to be sealed with either a gas torch or hot air | |
|-------------------------------|-------------------------|---|--|
| Application fields | - | er in a flat roof system. Can be used adhered on a variety of tely prepared substrates and insulants. | A STATE OF THE STA |
| Surface | top: | PE foil | |
| | bottom: | release film (cold self-adhesive bitumen underside) | |
| Reinforcement type and weight | glass latti | ice with glass fleece combination | |
| Article number | 1625 000 | 0 | |
| abP | P-51-10-0049 | | |

| Characteristic | Test method | Unit | Value |
|--|-------------|--------|--------|
| Length | EN 1848-1 | m | 15 |
| Width | EN 1848-1 | m | 1 |
| Thickness | EN 1849-1 | mm | 2 |
| Mass per unit area | - | kg/m² | 2,5 |
| Straightness | EN 1848-1 | mm/10m | <20 |
| Reaction to fire | EN 13501-1 | - | E |
| Watertightness | EN 1928 | - | passed |
| Flexibility at low temperature top | EN 1109 | °C | ≤-30 |
| Flexibility at low temperature bottom | EN 1109 | °C | ≤-30 |
| Flow resistance at elevated temperature top | EN 1110 | °C | ≥100 |
| Flow resistance at elevated temperature bottom | EN 1110 | °C | ≥100 |
| Max. tensile force length | EN 12311-1 | N/50mm | ≥1000 |
| Max. tensile force transverse | EN 12311-1 | N/50mm | ≥1000 |
| Elongation at max. tensile force length | EN 12311-1 | % | ≥2 |
| Elongation at max. tensile force transverse | EN 12311-1 | % | ≥2 |

Technical data sheet BauderTEC Sprint DUO Roofing membrane

| Characteristic | Test method | Unit | Value | | | |
|---|---|--|---|--|--|--|
| External fire performance | CEN/TS 1187 | - | Product has been fire tested as part of a system assembly and this information can be obtained in the Fire Test Report available from Bauder Ltd. | | | |
| Product surface finish | If the laps of the membrane are heat sealed, the membrane can be used as temporary waterproofing. A temporary waterproofing is a temporary protection against rain. It is part of the concept of a temporary waterproofing, and this must be monitored during the construction phase and, inspected for damage prior to installation of the rest of the waterproofing system. If the membrane is left exposed after a maximum period of 2 months, the membrane should be covered by the additional waterproofing system. It must also be clear that the criteria of a permanent waterproofing cannot be expected from this temporary waterproofing application. | | | | | |
| Product storage guidance | On end/Upright - The membranes must also be protected from UV rays, moisture and heat. | | | | | |
| Pallet size | Pallet size =20 rolls/300m ² per pallet | | | | | |
| Storage temperature range | +5°C to +30°C | | | | | |
| Packaging material | The product will be delivered on wooden pallets with plastic overwrap to protect the product. Each roll has a paper wrapping/tape to the external of the product, which must be removed before use. | | | | | |
| Handling/PPE | All persons using the product should be fully aware of the manual handling methods as roofing materials are heavy and can cause serious injury. When using/handling the product, installers should be provided with, and wear, suitable personal protective equipment. | | | | | |
| Shelf life | When stored correctly, the product has a stated shelf life of 9 months. We would suggest additional installation techniques may be required to ensure adequate adhesion is achieved. | | | | | |
| Disposal guidance | | Bitumen waste can be disposed of with household waste or commercial waste similar to household waste (European waste catalogue EWC number 170302 "asphalt tar-free"). | | | | |
| Re-use options of product | Please refer | Please refer to EPD stated below in Certification and environmental information. | | | | |
| Further information/documents | | Current documents such as DoC's, DoP's (where relevant), brochures, installation guides, etc. can be found by visiting www.bauder.co.uk | | | | |
